TUESDAY

Um 8 Uhr morgens haben wir uns alle getroffen, um dann gegen 9 Uhr in Richtung Ostrava zu fahren. Um 9 Uhr waren wir dann im Industriegebiet von Dolni Vitkovice. Dort hatten wir 15 bis 20 Minuten Freizeit. Danach sind wir in das Science-Center "Welt der Technik" gegangen. Es war sehr aufregend, weil man viele neue Dinge kennengelernt hat. Um etwa 12 Uhr ging es in eine Kletterhalle auf dem Gebiet. Alle hatten sehr viel Spaß dort. Dann hatten wir wieder Freizeit im Einkaufszentrum. Dort haben wir zuerst Mittag gegessen. Die nicht länger in der Stadt bleiben wollten, trafen sich um halb 5 wieder am Bus. Wir gingen noch zu Albert, um für unser geplantes Picknick Essen zu kaufen. Erst waren wir in der Nähe der Stadt in einem Park und dann etwas außerhalb an einem schönen Fluss. Dort wurde uns das tschechische Ninja erklärt. Der Tag war sehr interessant und lustig. Am Abend sind alle hundemüde ins Bett gefallen.

WEDNESDAY

On Wednesday we took our German students on a tour of our school. We showed them our classrooms. They also tried our new VR goggles which was a new experience for most students. Because the weather was bad, we spent more time in the school because our planned tour of the city of Frýdlant nad Ostravicí was canceled. Then we hopped on our bus and we went to Marlenka. We tasted some of Marlenka's finest sweets and then we went on a tour of the factory. After that we returned to Frýdlant where we all went our separate ways.

Am Mittwoch haben wir den deutschen Schülern unsere Schule gezeigt. Wir zeigten unsere Klassenräume. Wir haben aber auch unsere neuen VR-Brillen den Schülern gezeigt. Dies war für die meisten Schüler etwas komplett Neues. Da das Wetter an diesem Tag nicht sehr gut war, konnten wir leider nicht Frýdlant nad Ostravicí erkunden. Aber wir hatten eine andere Idee: Wir stiegen in unseren Bus und begaben uns auf den Weg zu Malenka. Malenka ist eine Süßigkeitenfirma, die ihre Produkte mit Honig herstellt. Wir lernten etwas über die Produktion und konnten danach ein paar Kuchen und Snacks kaufen. Danach fuhren wir zurück zur Schule.

INTERVIEW

Have you ever been to the Czech Republic before?

Reik: Yes, we both were here on the exchange last time.

How do you like the Czech Republic?

Melissa: I think it's really beautiful, I like the mountains because Northern Germany is very flat.

Reik: I like the scenery here. I was on a bike ride yesterday with my exchange student, we were driving through the mountains and woods, the area was perfect.

What is most surprising here?

Melissa: You change your shoes in school.

Reik: Definitely the different sport teams and sport categories you are interested in, e. g. we like football very much whereas you like hockey better.

Are there any big differences between your and our school system?

Reik: Yeah, you are way more specialized on your subjects.

What were you most excited about?

Reik: I think everything, I knew what to expect since being here once before two years ago. I loved it last time, I was excited about everything like getting to see all the people I got to know two years ago.

Have you tried any Czech food? Which one is your favorite?

Melissa: I think I didn't eat anything new, but we both tried Kofola.

Reik: I think Schnitzel is traditional here and I also had grilled cheese.

Have you learned any Czech words? Which ones?

Reik: Ahoj, čau and čáp.

Are you excited to go to Prague? Have you been there before?

Melissa: We both have been there last time. The architecture is very beautiful. I also liked Brno, I was there with my family.

Reik: Prague is a beautiful city, very old.

THURSDAY

The whole day was going really well, we took a bus to Frýdek Místek where the firefighters with four fully prepared stations were waiting for us to arrive.

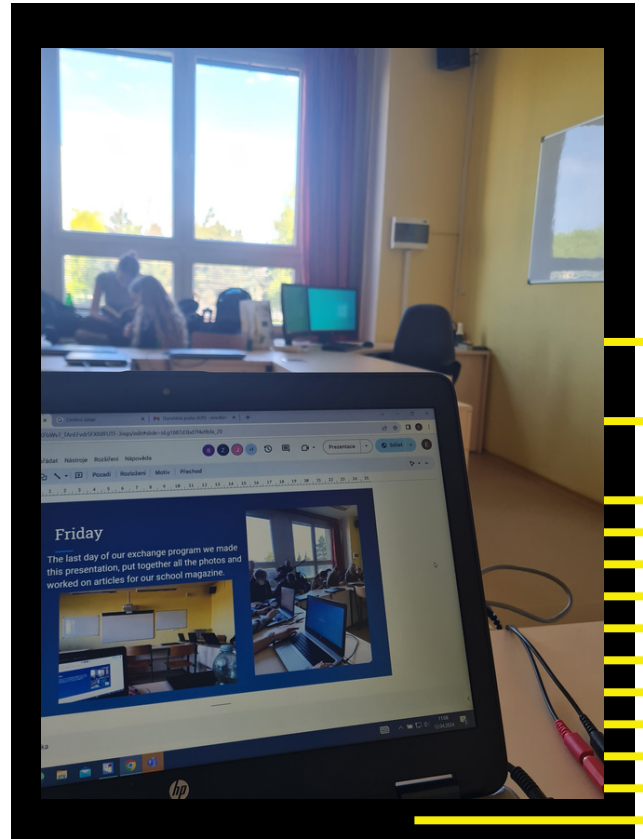

We split into four groups made out of two Czech and two German groups of students. There were translators for every German group so they would understand and fully enjoy everything the firefighters prepared. At the first station the students were able to try a simulation of a real firefighters' mission, including press communication. At the second station, there were waiting real fire department cars which we could see from the inside and outside as well as try some of the equipment the firefighters use. At the third station, we could experience some of the firefighters' training in an underground training hall. The fourth station was inside and everyone was able to see the call center of 112. They heard everything from two educated dispatchers. Some of them had the opportunity to try a simulation of a real call.

After this wonderful occasion, everyone went to have lunch and go bowling which everyone really enjoyed. At the end of the day, everyone came back to Frýdlant to enjoy some free time with their host families.

FRIDAY

On Friday we were preparing presentations, interviews, and articles with our exchange students. Then we had lunch in our school cafeteria and at 1 p.m. German students left our school and spent two days in Prague. We are looking forward to visit Germany in September and meet our new friends again.
